NOTE.—The above plat of four townships will, no doubt, be found sufficient to include the boundary lines of any School District, however large and irregular the district may be. School Districts frequently embrace portions of two or more townships. When a School District is established, the lines should be carefully and accurately traced on the plat above. When subsequent changes are made, a new map of the district should be drawn on the next plat including the alterations made, and, in this way, a correct map of the district may be preserved. When the County School Superintendent establishes or alters the boundaries of a School District, he should fill out and sign the following certificate:

Grand Rapids Mich Feb 2/94

Mr H. L. Lyman
Co. Supt of Schools
Ionia Mich

Dear Sir. I am Circulating petition
for new School district
I did not see all of the residents
in said dis, there is only 2 residents
that the new district will be in
out of the full dis that is Brown and
John Soop, you will see by the map they
are both closer to Grand Rapids than to Ionia.
they both have signed the petition, and want
to be in the new dis, Johnson has no children
old enough for School but Brown has and
according to law he is compelled to send
them to School and he says it is impossible
to send them unless you will let him in
the new dis, you will see that we
only ask ½ mile of a strip of the Full
district and the rest from Vine Maple
Grove district in which Maple signed the
petition but 2 did not sign them
we must have School this Summer for
our children if you will please do
this we will [illegible] more for
School
If you cannot take any from the Full
dis leave Johnson & Brown out
and say if you see how to do with
but think they should be in the new
dis as it is closer to School for them and
that is where they want to be
Yours very truly
